Perfume Premiers[©]

Discover a unique collection designed to captivate your senses, cultivated with exceptional care and imbued with irresistible allure. Elevate your assortment with our innovative collection, crafted by Bock, pioneer with over 40 years of expertise in Phalaenopsis breeding.

Fragrant Blooms

Each exquisite bloom carries a lingering, alluring scent reminiscent of high-end perfume advertisements, strong enough for the market yet delicately enchanting indoors without over-whelming.

A Symphony of Colors

From the rarest blues to deep purples and vibrant yellows, our Perfume Premiers bring a spectrum of colors that even the most captivating perfume ads can't capture.

Sensual Harmony

These carefully bred varieties come together in perfect harmony, making them a pleasure to cultivate side by side, just as skilled perfumers blend fragrances for unforgettable allure.

Exceptional Longevity

Enjoy the pleasure of these long-lasting, resilient blooms that maintain their allure day after day, just like the alluring perfumes showcased in fragrance advertisements.

Cultivation Advantages

Perfume Premiers® offer many advantages and making a breeze to grow for professionals worldwide. Strong root systems guarantee healthy, failure-free cultivation.

Sturdy Spikes

Perfume Premiers® quickly develop sturdy spikes, eliminating with most of the varieties the need for staking, thus allowing for more layers in the transport container during packing.

Sustainable & Made in Europe

Both breeding and in-vitro culture are conducted sustainably in Europe with a minimal carbon footprint. We are your trusted partner, available on-site and around the clock.

A Whiff of Haute Couture

Immerse yourself in the world of Parfum Phalaenopsis Orchids and elevate your offerings to a realm of irresistible allure. Indulge in the allure of Perfume Premiers® Orchids, where haute couture meets horticulture excellence.
